

## **Prospect**

The Early Church inherited a generation of people, who were narrow-minded, clinging to the letters of the Law without true understanding of its essence. Despite various pressure and hindrances, the Church by the power of the Holy Spirit eventually blazed a living trail for worldwide mission and achieved the above-mentioned 17 breakthroughs!

Some of the 17 breakthroughs have occurred in the contemporary Chinese churches. Others require further efforts, especially those concerning “headquarters-syndrome,” “outreach target,” “Chinese 'synagogues',” “the bondage of traditions,” etc.

May brothers and sisters in the Chinese churches today, especially the leaders, come humbly before the Lord, confess our past shortcomings concerning world evangelization, ask for His forgiveness, and pray that He will grant us a worldwide vision and unprecedented courage to join the mighty army for global missions. Let all of us work together, whether in the frontlines or at the home base, each doing his/her duty, and truly spread the gospel to the ends of the earth.
