The Workshop serves as a platform for colleagues to share God's work and encourage each other on! As the session comes to a close, everyone, with great appreciation,. is looking forward to our next meeting

2015 Trip to Serbia

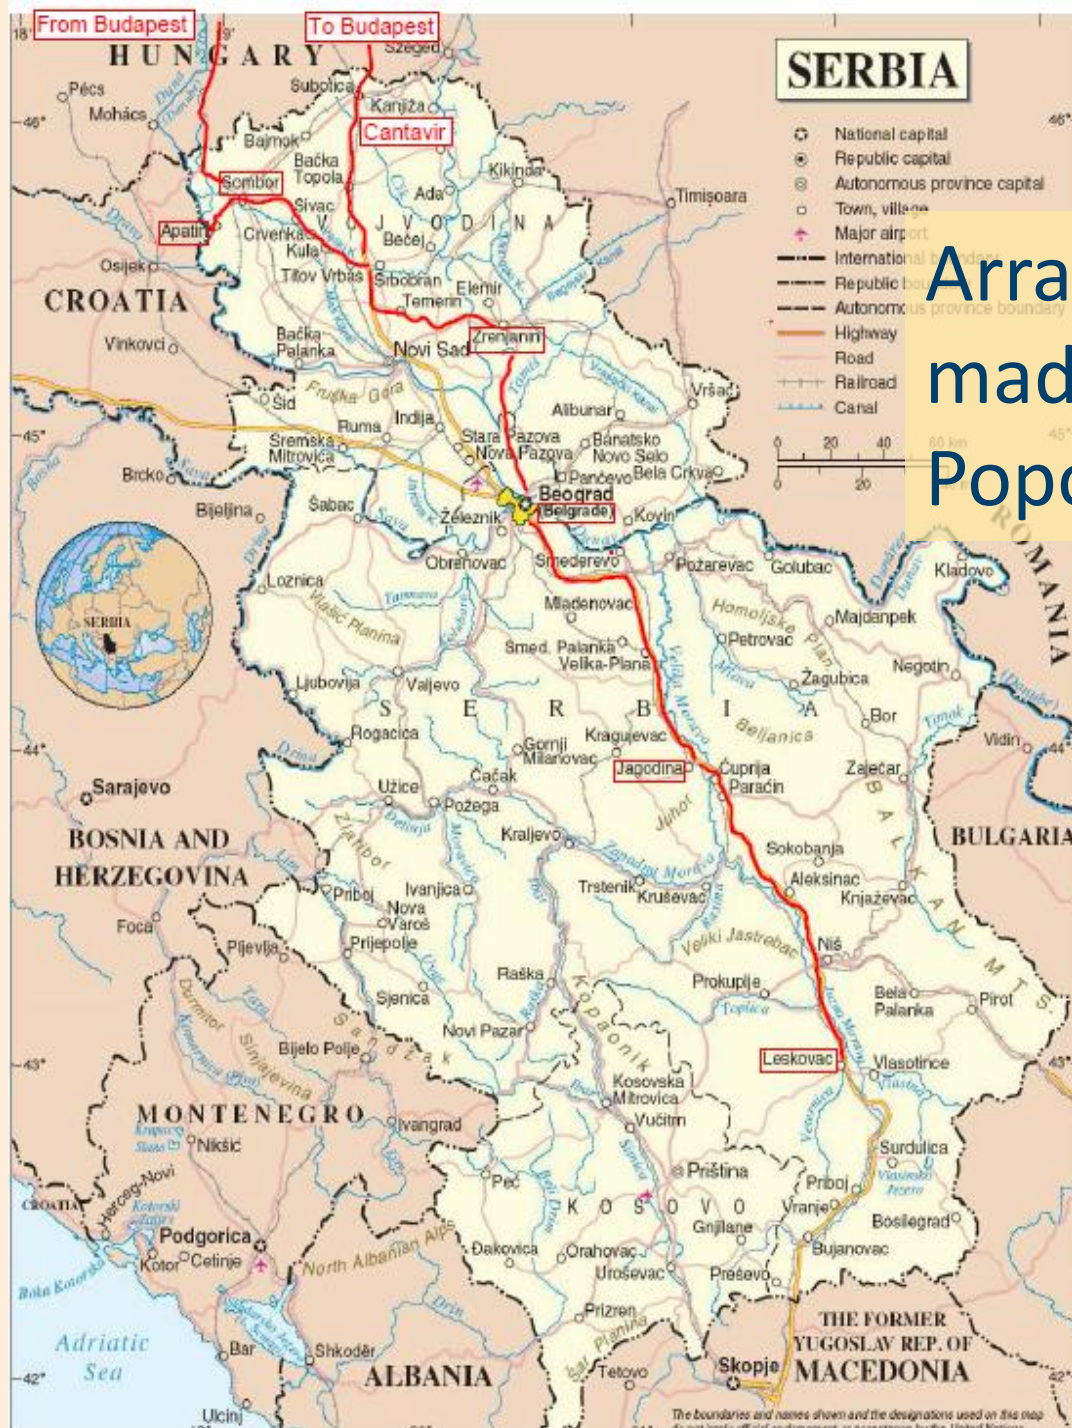

Oct 3-7

After the Conference, eleven people embarked on a trip to Serbia to visit Roma Churches.

Serbia is a small developing country in East Europe, most people are followers of the Eastern Orthodox Church.

Arrangements were made by Pastor Jovica Popov (Pastor John)

We entered the country through a checkpoint near Sombor, a tranquil town in neighboring Hungary. We encountered no problems, nor did we come across waves of refugees that lately plagued the area.

Apatin was our first stop, where we visited the place of the Roma Church bought with the help of our small donation. The congregation used to meet at another center, as they were forced out.

The new place is dilapidated, needs money for renovation

Visiting Roma families

While the husband is out to work, the wife with their small son came to meet us.

The older son is looking for work. We prayed for the family.

The family is within the church network. All members attend church regularly.

We stayed at the church dormitory of Pastor John at Zerenjanin. On Sunday we worshipped and had Holy Communion together with Christians of different culture. Great cross-cultural experience.

We headed south after lunch, reached Leskovac in the evening, attended a service at the largest Roma church in Serbia and had another meal with the Roma. It was a church established by the Serbian church, the chief pastor cares about the Roma as well as the Chinese, he welcomed the Chinese to congregate there too.

The Roma Christians need pastoral care and prayer for peace and joy with our Lord Jesus.

At Jagodina, we visited a children's center, an institution sponsored by missionaries for Roma children. It has a church of its own, led by a Roma shepherd, Pastor Miki.

The institution recently bought a huge camp ground with great potentials for events for the Roma. It was opened for use last summer.

Back to the town of Zerenjanin, we came to know the Roma ministries of Pastor John.

He encouraged the Roma to run a fruit and vegetable wholesale business and to pass their management skills to other Roma later.

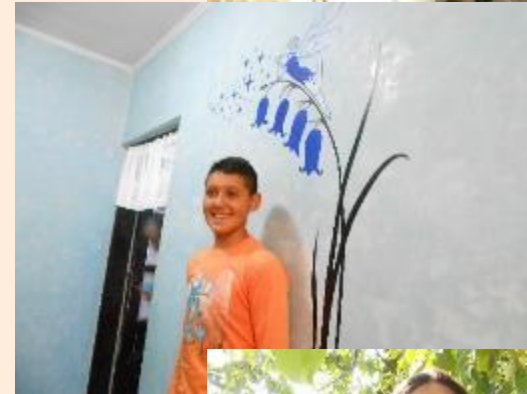

Some of the Roma-operated fruit stands in the nearby market also served as good examples for others to follow.

Another colleague of Pastor John mobilized resources to encourage families to farm to supplement their meager income

A good example of positive life style, keep the household neat and clean, work hard in school and live in peace.

We were received warmly by the household. Their grandson is now in high school. We gave thanks to the Lord!

Pastor John also supports another small church where the congregation includes Serbians and a considerable number of Roma children.

The place rented by this church may no longer be available due to inheritance issues. Please remember them in prayers.

The work of Pastor John, converting the Roma, is a huge and difficult task.

Outdoor

Can you imagine living in this condition?

Five daughters, an unemployed father and a sick grandma in dire need of medical care.

Indoor

Unthinkable!

Three households crowded under one roof!

The clothes piled up on the outside were meant for use as fuels for cooking.

開飯用的大盆！

We came to know another colleague of Pastor Tibor at Subotica

Care for the lonely and needy by giving out bread and other goods

This couple is now being helped. The man works in the big field next to their house, and the woman is helping out in children's work.

Another Roma village under the care of Pastor Tibor

The unemployed and the kids who dropped out of school and being abandoned. All need assistance

Houses in need of repair

Admirable Pastors

None of them are Roma, but all of them love the Roma. Their families join the work of serving the Roma.

Their churches are small and can only provide limited support.

What can we do to help? Which area are you willing to help?

What the Roma need is “opportunity”

Are you willing to provide jobs for the Roma?

If you are a Chinese business man, will you be willing to hire Roma for work?

If you are in business,
are you willing to help
market the fruits and
vegetables grown by
the Roma?

If you own a plant,
you might even help
in processing their
fruits and vegetables
into canned products
to be exported.

This will cut off the
middleman's profit.

The Roma have long suffered from incorrect values of family and marriage. Are you willing to share to them the lessons you learned from the Bible?

Are you willing to lead the Roma children to play games, learn handicrafts or help them prepare for schools?
